**SUMMARY OF THE REASONS FOR DECISION:**

The computer image file entitled *04ns004.jpg* is classified as:  
Unrestricted.

The computer image file contains a colour photographic image that depicts a fully clothed woman with her arms held out in front of her and tied together with rope. The image focuses on her arms. The image does not depict sexual activity or nudity and, in isolation, does not present as particularly sexualised. While the image might potentially be suggestive of violence, it does not actually depict violence. No one else is visible. There is nothing in the image suggesting the woman is in distress. She does not appear to be struggling but is merely posing.

The publication does not describe, depict, express or otherwise deal with any of the matters listed in s3(1) of the Films, Videos, and Publications Classification Act 1993. The Classification Office therefore has no jurisdiction to determine whether the publication is "objectionable" or "objectionable except in particular circumstances". As a consequence, the publication must be classified as unrestricted.
